4-H & FFA RULES

Parents and Leaders: Youth should do their own project whenever safe and practical. The Mesa County Executive Fair Board (MCEFB) recognizes that adult leaders and parents are expected to TEACH the child skills of their project, and in some cases, demonstrations on the project as deemed necessary. **Adults must ask themselves, “Am I showing the child, telling the child, or doing the project work for the child?”** Remember that each child who does not do his/her own work is the child that is cheated out of the experience.

GENERAL RULES:

These rules apply to Livestock and Indoor Project Areas.

NOTE: All rules in this guide will be available no later than May 1st of the current year and no changes except those dealing with animal or human safety may be made after that point.

Detailed Project Guidelines for these projects follow the Colorado 4-H State Fair Exhibit Requirements. It is updated yearly and can be found at:

<https://co4h.colostate.edu/statefair/StateFairExhibitReq.pdf>.

Look up your project and take note of the specific guidelines for each unit. We recommend you do this early in the year and again right before fair to note any changes and double check your product.

RULE 1: INTERVIEW JUDGING

All 4-H General and Family/Consumer Sciences projects will be interview judged. Interviews are not mandatory but are highly encouraged. If a member is unable to attend the interview judging day, they should notify the Extension Office when they pre-enter their projects to prevent problems with the interview schedule.

RULE 2: CLOSED TO THE PUBLIC

Judging of the divisions will be closed to the public.

RULE 3: STATE FAIR

The first-place exhibit in each class is eligible to exhibit at the State Fair, unless otherwise stated. If a project is not deemed of high enough quality to promote to the state fair, the judge has the discretion to award it a 2nd place ribbon even if it is the only entry in the project level. All State Fair 4-H Indoor Exhibits must be entered in the 4-H office by the deadline published at the County Fair. It is the exhibitor's responsibility to meet any deadlines. Assistance may be needed from the exhibitor to transport large exhibits to the State Fair.

RULE 4: MERIT

When there is no competition, the exhibit shall be judged on its own merit at the discretion of the official judge. The exhibits must merit the award. Projects must fit into a project area and be judged accordingly; if not, the project will be judged where superintendent deems appropriate. All exhibits will be judged according to rules and guidelines listed in the current year's Colorado State 4-H Syllabus. ***All judges' decisions are final.***

OTHER GUIDELINES:

The purpose of the interview is for the member to share the things they've learned and answer questions about the project. Members leave the project and record book at the conclusion of the interview and judging is completed. The exhibit building usually opens to the public on Tuesday.
2. A completed record book is required with each display. E-records can be found at: <https://co4h.colostate.edu/program-areas/colorado-4-h-project-information/> Choose your project category and look for the link to your e-record.
3. Cloverbuds: 4-H members 5-7 years old who pre-entered may drop off their projects between 9:30 am and 12 noon on judging day. Cloverbuds are encouraged to also have an interview with one of our junior judges when they bring their project in for exhibition. Please make sure that all items are labeled with name, age, and club.
4. Please label your project and record book before bringing it to the fair.
5. Fashion Revue is a contest that is open to all 4-H members who create a wearable clothing item as their 4-H exhibit. 4-H members are judged on their poise, the fit of the clothing, their choice of style and design, and the overall look of the complete outfit. Cloverbuds are eligible for this event although they do not compete in the judging session. It is usually held before the fair at a separate time.

Heritage Breed Conservation Project

This addition to the poultry program is designed to encourage the development of sustainable agriculture and promote the stewardship of heritage poultry lines. No additional records will need to be included in the record book. The judge will need to evaluate the project via a display board presented at fair along with the formal interview (75% of overall score) and bird(s) presentation within their class (25% of overall score) at fair. Ribbons will be awarded based upon the presentation of the board, interview performance as well as how well your bird(s) fits the APA standards for the heritage bird presented. All heritage project birds will compete together for the Heritage Conservation award buckle. There will also be a Champion and Reserve Champion Heritage Breed Conservation Project awards.

Heritage Chickens, Ducks, Turkeys, Geese, and Guineas must adhere to all the following:

A. APA Standard Breed

Heritage Poultry must be from parent and grandparent stock of breeds recognized by the American Poultry Association (APA) prior to the mid-20th century; whose genetic line can be traced back multiple generations; and with traits that meet the APA Standard of Perfection guidelines for the breed. Heritage Poultry must be produced and sired by an APA Standard breed. Heritage eggs must be laid by an APA Standard breed.

B. Naturally mating

Heritage Poultry must be reproduced and genetically maintained through natural mating. Heritage Poultry must be the result of naturally mating pairs of both grandparent and parent stock.

C. Long, productive outdoor lifespan

Heritage Poultry must have the genetic ability to live a long, vigorous life and thrive in the rigors of pasture-based, outdoor production systems. Breeding females should be productive for 5-7 years and males for 3-5 years.

D. Slow growth rate

Heritage Poultry must have a moderate to slow rate of growth, reaching appropriate market weight for the breed in no less than 16 weeks for chickens and 28 weeks for turkeys. This gives the poultry time to develop strong skeletal structure and healthy organs prior to building muscle mass.

E. Abbreviated Definition: A Heritage Egg can only be produced by an American Poultry Association Standard breed. Heritage Poultry is hatched from a heritage egg sired by an American Poultry Association Standard breed established prior to the mid-20th century, is slow growing, naturally mated with a long productive outdoor life.

F. Heritage game birds are allowed (utility pigeons, quail, pheasants, and partridge) these birds must meet their breed standard, according to their respective associations, and all the other points above.

G. If an entered heritage poultry breed is listed on the Livestock Conservation list, but is not on the APA list the judge will be given the breed standard for the fair entry and will judge the bird according to the breed standard provided.

1. The 4-H member **must own** the parent birds at the time of hatching.
2. Member must hatch the birds that will be shown at fair.
3. Parent birds do not need to be shown at fair, however they do need to be documented via the display board and contain a hatching record.
4. Hatching records must include:
 - a. Date the eggs are set.
 - b. Date the eggs hatch.

- c. Document incubation and hatch via hen or incubator.
- d. If by incubator; include relative humidity, temperature and turning rate.
- e. How many eggs are set and how many hatch (hatch rate).
5. The display board and interview should give the judge a good idea of your experience with this class.
6. Regardless if the bird(s) are being entered in the heritage market show or the heritage breeding show, all offspring must be deemed by the judge to be market ready at fair time. The point of this class is to raise APA quality birds that can be sent to market or used as Heritage Conservation breeding birds. Birds that are deemed not to be market ready, or poorly fit their breed standard, at the time of fair will not be eligible for the Heritage Conservation award.
7. Please note, if a heritage conservation bird(s) is entered in the market class the bird will go to the auction along with the other market birds regardless of any other awards earned in the Heritage Conservation class.
8. You must decide at the time of 4honline animal uploads deadline if your Heritage Conservation Birds will be shown in the Market Class or the Breeding Class. Once the animal upload is complete, the classes cannot be changed.
9. **Weights shall fall within 20% of the APA standard or the equivalent standard for game birds.**

Section #5: Dog Agility

4-H Dog Agility Participation Rules

RULE 1: Each participant should bring a dog crate, or some other means to control their dog while they are walking the course. They should also bring a leash, water, a bowl for their dogs, poop bags, some form of shade for their dog's crate (towel, sheet, or some other cover, which allows for air to circulate), treats if desired, and a drink for themselves. It is also advised to bring chairs and shade if you have them.

RULE 2: This event will be run similarly to an AKC Dog Agility Competition. State guidelines will be followed and can be found at <http://co4h.colostate.edu/statefair/DogAgilityRules.pdf>

RULE 3: Keep in mind that there are a lot of new scents and sights for your dog. Allow them to have some time to sniff and become acclimated to their surroundings. Keep a tight hold of your leash as there are many animals there and your normally docile controlled dog may become very excited in this new environment.

RULE 4: Have fun! Eagerly show what you have learned, don't worry, people love what they see and they will cheer and clap whether you do it right or not. Love your dog no matter what he/she does. He/she has worked hard for you all year and you have both had a lot of fun!

RULE 5: You are responsible for you and your dog's behavior. Harsh treatment of your dog will not be tolerated. It will result in temporary or permanent removal or participations. Remember this needs to be fun for the dogs, too.

RULE 6: Entrants will have a chance to walk the course without their dogs before any participant runs with their dog.

Rules for the Competition Run

RULE 1: 4-H member's dogs must be at least one year old to run.

RULE 2: 4-H members must run the dog they have trained in 4-H agility. Participants must have attended at least 6 trainings with a leader or trainer experienced in agility to show in any class other than on leash novice. All members, including novice, are encouraged to get training in order to ensure a fun and safe event.

RULE 3: The agility course will roughly follow the AKC rules and guidelines.

RULE 4: Each level, Novice, Open and Excellent will have a course appropriate to that level.

RULE 5: Dogs will run one at a time from small to tall.

RULE 6: Participants must be on the start line ready to go when it is their turn or they will be skipped from that round of competition.

RULE 7: Dogs must be on leash or confined at all times except when they are running their course. Also, participants must have their dog under control and back on leash at the conclusion of their course.

RULE 8: As the sun sets, all students will help break down the equipment and pack into the trailer for transportation.

RULE 9: The leader or show manager may ask any participant or dog to leave the course if she feels that the handler, dog, or crowd is unsafe or unfamiliar with the equipment. This may be temporary or permanent removal at the discretion of the leader. Aggressive dogs may be asked to leave by the leader.
